*In Commemoration of Golden Jubilee Celebration of M.Sc. and
Silver Jubilee Celebration of Ph.D. in Nursing Program*

Dear Sir/Madam

It is our pleasure to invite you to the National Community Health Nursing Conference which is to be held in College of Nursing, Christian Medical College, Vellore, Tamil Nadu from 13th - 14th February 2020.

Christian Medical College, Vellore was established in 1900 and occupies a prominent place among the medical institutions in India. CMC is unique in being a multidisciplinary tertiary care centre with 2745 beds and also serving the communities around to provide preventive and holistic care. The College of Nursing is an integral part of CMC and plays a vital role in providing quality education and training to prepare knowledgeable and competent nurses who effectively function in various health care settings. The Department of Community Health Nursing College of Nursing had been a pioneer in starting community health services since 1947 and is part of the extensive outreach programmes of the institution in 5 different community health programmes covering 4,00,000 population. CONCH is a unique community health nurse managed programme. SOCHNI, Society of Community Health Nurses of India has the vision of empowerment of Community Health Nurses through continued education and professional development for expanding the scope of Community Health Nursing practice in India.

Non Communicable Diseases (NCDs) kill 41 million people each year equivalent to 71% of all deaths globally. Tobacco use, physical inactivity, the harmful use of alcohol and unhealthy diets increase the risk of premature NCD deaths. An important way to control NCDs is to focus on reducing the risk factors associated with these diseases. Universal Health Coverage ensures everyone, everywhere can access essential quality health services without financial hardship. Community Health Nurses are at the forefront of managing the epidemic of NCDs within the framework of UHC. The conference aims to empower Community Health Nurses to be trendsetters to change the promise of Universal Health Coverage into a reality to combat the burden of NCDs.

OBJECTIVES OF THE CONFERENCE

The participants will be able to

1. Broaden their understanding of the burden of NCDs worldwide and the National guidelines for screening and management of NCDs
2. Describe the roles and challenges for the prevention and control of NCDs through Universal Health coverage
3. Acquire knowledge on health financing system for UHC
4. Gain insight in the innovative evidence informed practice in the community settings
